Sureseal HD Mattress with Built In Pillow

A Better Quality Mattress, More Durable,
More Sanitary - For a Better Price

Improved Anti-Contaminant Barrier

**ALL MATTRESS SEAMS ARE RADIO
FREQUENCY WELDED TO FORM A
COMPLETELY SEALED BARRIER**

More Durable, More Sanitary

Sureseal HD Mattresses with Polyurethane Sealed Seam Covers are designed for HD (Heavy Duty) applications or more severe use mattresses. Environments such as a shelters where the facilitators are cleaning and handling the beds daily need the technology of a sealed seam mattress but also need the strength of Polyurethane instead of vinyl for the cover. Maintenance becomes easier and cleaning becomes much faster than a sewn cover.

Pillow Built Right Into Mattress

Housing facilitators can put an end to costly separate pillow costs because the pillow is built right into mattress.

Features

Anti-Microbial:

All components are anti-microbial and assist in prohibiting growth of bacteria and fungi.

Bed Bug Proof:

Sealed cover does not allow bed bugs a place to hide or lay eggs. No flaps, zippers, or tape edge.

Non-Allergenic:

The entire foam core is constructed from 100% non-recycled, non-allergenic, HD Polyurethane.

Flammability:

Meets Federal Standard 16 CFR 1633, Cal. TB 117-2013 and Cal. TB 121.

Filtered Air Vents:

Permits condensation to escape while not allowing fluids to enter.

Mattress Cover:

Heavy gauge polyurethane that is soft, stretchable, and resistant to cold cracking and staining. Will not allow fluids to pass through and can be easily cleaned with standard hospital cleaning products. Reduces skin irritation.
